DHIRAJ KUMAR

Software Developer || Full Stack Developer || Web Developer

+91-8540075502 | dhiraj.300012723016@csvtu.ac.in | GitHub | LinkedIn | Portfolio

Professional Summary

Software Development and Full Stack Development enthusiast pursuing B.Tech (Hons.) in Computer Science Engineering (Artificial Intelligence) at CSVTU Bhilai. Skilled in frontend and backend development, REST APIs, database management, and building responsive web applications using modern technologies. Experienced in developing end-to-end software solutions through internships and hands-on projects. Passionate about designing scalable, efficient, and user-friendly applications to solve real-world problems..

Education

B.Tech (Hons.) CSE(AI) - CSVTU Bhilai SPI-8.80, 2023 – 2027
Senior Secondary (Class XII) - BSEB 88%, 2021 – 2022
Secondary School (Class X) - BSEB 88%, 2019 – 2020

Experience

Technical Intern (On-Site), Jan 2026 – June 2026 **STEMbotix Pvt. Ltd., Gandhinagar**
- Worked in the field of Machine Learning and Web Development. Built a complete Inventory Management System for product, stock, and record management using web development technologies.Developed and optimized machine learning models for real-world AI & Robotics applications in STEM education.

Data Science Intern (Remote/Part-Time), Jan 2026 – June 2026 **IISER Bhopal, Madhya Pradesh**
- Worked on image data tampering techniques using COCO dataset with computer vision and machine learning. Performed copy-paste & copy move techniques, blending, and benchmarking to improve accuracy.

Data Analytics & Visualization Workshop (On-Site), July 2025 **IIT Bhilai, Chhattisgarh**
- Learned Python-based data analysis and exploratory data analysis (EDA). Worked with Pandas, Matplotlib, Seaborn, and Plotly for data visualization. Created models and performed analysis on real-world datasets.

Summer Intern (On-Site), May 2025 – July 2025 **NIT Patna, Bihar**
- Evaluated 4 deep learning architectures (LeNet, ResNet, Transformer, VGG16) on MNIST dataset and compared performance using Accuracy, Precision, Recall and F1-Score.

Projects

Power Demand Forecasting System GitHub Nov 2024
- Developed a full-stack electricity demand forecasting application featuring an interactive dashboard for visualizing power consumption and forecast results. Built a FastAPI backend integrating the XGBoost prediction model with historical demand data, holiday calendars, and weather information through data processing workflows. Implemented end-to-end data flow between the backend and dashboard, enabling demand forecasting and data-driven decision-making..

Resume Generator GitHub May 2026
- Developed a web-based resume generator that enables users to create and customize professional resumes through a structured interface. Implemented dynamic resume content generation from user-provided details, with a focus on usability and responsive design.

Carbon Emissions Reporting Platform GitHub Dec 2025
- Developed a full-stack carbon emissions reporting platform to track and analyze greenhouse gas emissions across Scope 1, Scope 2, and Scope 3, aligned with the GHG Protocol. Built an interactive reporting interface to present emissions data and help users monitor environmental impact and make data-driven decisions.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, C++, C, SQL
- **Frontend Development:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Responsive Web Design
- **Backend Development:** Node.js, Express.js, FastAPI, REST APIs
- **Databases & ORM:** PostgreSQL, MySQL, Drizzle ORM, SQL
- **Core Computer Science:** DSA, OOPS, DBMS, Operating Systems, Computer Networks
- **Tools & Deployment:** Git, GitHub, VS Code, Docker, Linux, Vercel, Render, VPS, PM2, Nginx

Achievements

- GATE 2026 (DA): AIR 12,853, Score 317.
- Ranked 7th in B.Tech (Hons.) CSE (AI) batch at CSVTU Bhilai with an SPI of 8.8 out of 10.
- Member of Robotics Club, Coding Club and NSS at CSVTU, Bhilai.
- Research Intern at IISER Bhopal & Summer Intern at NIT Patna
